Re: Easements

We have just received your facsimile transmitted memorandum regarding the reported easements relating to the Reiland and Round Hill Enterprises properties in the area of the cart path between the sixth and seventh holes of our golf course.

Mr. Reiland has not yet responded. It is my opinion, absent an ability to reach him over a period of several days, that he and his family are vacationing at this time.

Over the next day or two I believe that it will be possible for me to obtain the easement information from an alternative source. As soon as I have done so, I will make and provide for you a copy of what I gather.
